

SB 90 & AB 1416, the *Ballot DISCLOSE Act*

Let Voters Know Who Supports and Opposes Ballot Measures — on the Ballot Itself

SB 90, authored by Senator Henry Stern, and AB 1416, authored by Assemblymember Miguel Santiago, are parallel bills sponsored by the California Clean Money Campaign to ensure voters know who supports and opposes state ballot measures.

Why California Needs the *Ballot DISCLOSE Act*

- **Every election, Californians vote on ballot propositions that bring drastic changes to our lives.** But we vote using ballots that don't list some of the most information voters care about most: who supports and who opposes.
- **Over \$750 million was spent on CA ballot measures in 2020**, much of it by donors hiding behind vacuous and misleading names like "*Californians for Equal Rights*" and "*Californians to Protect Affordable Housing*".
- **Campaigns supported by organizations people trust are too often drowned out by Big Money** so voters don't know who really supports and opposes good or bad ballot measures.

No Information is More Important to Voters Than Who Really Supports & Opposes

- **79% of voters say it's important to know who really supports and opposes** ballot measures when they vote.
- **But only 21% of voters** are "very confident" they know the important supporters and opponents when they vote.
- **Signers of the arguments for and against ballot measures are in the ballot pamphlet, but it's often over 100 pages long.** Only 42% of voters say it's "quick and easy" to find supporters and opponents in the ballot pamphlet.
- **75% of likely voters favor** "adding to the ballot a short list of supporters and opponents of each ballot proposition".

What the *Ballot DISCLOSE Act* Will Do

- **SB 90 & AB 1416 will add a short list of the supporters and opponents (15 words apiece) of each state ballot measure** to the current 75-word title and summary so people know who supports and opposes them.
- **Supporters and opponents are taken from the official ballot pamphlet signers** of the arguments for and against each ballot measure — helping voters who don't remember or read all details of the 100+ page pamphlet.

Example of *Ballot DISCLOSE Act* on the Ballot and the Effect it Will Have

- **BEFORE:** In 2010, despite near-universal opposition from editorial boards and trailing badly in the polls, Proposition 26 passed — after \$18 million in ads by "*Stop Hidden Taxes*". Since then, Prop 26 has had huge effects by preventing state and local governments from raising fees, even on polluters, without a 2/3 vote.
- **AFTER:** With the *Ballot DISCLOSE Act*, voters would have clearly seen that Prop 26 was opposed by trusted organizations like the League of Women Voters, American Lung Association, Sierra Club California, and California League of Conservation Voters.

Prop 26 passed with 52.5% of the vote. Might 3% have voted differently had they known who opposed it?

Example Supporters and Opponents Added to the Title and Summary on the Ballot:

26	REQUIRES THAT CERTAIN STATE AND LOCAL FEES BE APPROVED BY TWO-THIRDS VOTE. FEES INCLUDE THOSE THAT ADDRESS ADVERSE IMPACTS ON SOCIETY OR THE ENVIRONMENT CAUSED BY THE FEE-PAYER'S BUSINESS. INITIATIVE CONSTITUTIONAL AMENDMENT. Fiscal Impact: Depending on decisions by governing bodies and voters, decreased state and local government revenues and spending (up to billions of dollars annually). Increased transportation spending and state General Fund costs (\$1 billion annually).	132 YES → <input type="radio"/>
	Supporters: California Taxpayers' Association, California Chamber of Commerce, Small Business Action Committee, Nisei Farmers League. Opponents: League of Women Voters California, American Lung Association, Sierra Club California, California League Conservation Voters.	133 NO → <input type="radio"/>

Part added by SB 90

Recent Ballot Measures Many Voters Didn't Know Who Supported or Opposed

Prop 15 (2020), the Tax on Commercial and Industrial Properties for Education and Local Government Funding Initiative, fell just short of winning with 48% of the vote despite leading in early polls. It lost after over \$144 million in conflicting ads, with more spent against it than for it. SB 90 & AB 1416 would have shown voters it was supported by the [League of Women Voters](#), [California Teachers Association](#), & [Latino Community Foundation](#).

Prop 16 (2020), to end California's Prop 209 ban on affirmative action, lost with 43% of the vote despite broad support from organizations most Californians trust — but may not have known supported it. SB 90 & AB 1416 would have shown voters it was supported by the [League of Women Voters of California](#), [California Teachers Association](#), and the [Mexican American Legal Defense and Educational Fund](#).

Prop 22 (2020), the “Uber and Lyft” initiative to treat drivers as contractors instead of employees, won after drowning voters with \$205 million in often deceptive ads, outspending opponents over 10 to 1. With SB 90 & AB 1416 in place, voters would have seen Prop 22 was opposed by trusted groups like [ACLU of Southern California](#), [California League of Conservation Voters](#), [California Teachers Association](#), and [California Professional Firefighters](#).

SB 90 and AB 1416 are Reasonable and Needed

Adds at most 32 words — 15 each for supporters and opponents, plus labels — to the current 75-word ballot label for each state measure. Amendments will ensure that it takes minimal extra space, including listing only once on ballots with multiple languages. This will add at most one page to ballots and often won't add any pages at all.

Does not clutter the ballot or slow voters down. Clearly showing “**Supporters**” and “**Opponents**” that people recognize will make it easier for people to put the legalese of the 75-word titles and summaries in better context. Our simulation of voting on ballots with 15 propositions found no drop-off in the number of people voting “Yes” overall.

Sham organizations and sham businesses will be barred from appearing by listing only non-profit organizations and businesses that have existed for at least two years. During that time, they must have continuously had at least one full-time staffer, or in the case of a non-profit have received contributions at least 50 donors.

The Ballot DISCLOSE Act Will Have a Major Positive Impact

A California Clean Money Campaign poll in 2019 showed that **the Ballot DISCLOSE Act will have a major positive impact on ballot measures supported by organizations that Californians trust.**

When Ballot Measures are Supported by One or More Organizations a Voter Trusts

When likely voters didn't know a proposition was supported by one or more organizations they trust (the current ballot format), 64% said they'd vote “Yes”.

The percentage who said they'd vote “Yes” leapt 9% when the ballot showed supporters & opponents.

When Ballot Measures are Opposed by One or More Organizations a Voter Trusts

When voters didn't know a proposition was opposed by one or more organizations they trust (the current ballot format), 42% said they'd vote “Yes”.

The percentage who said they'd vote “Yes” fell 10% when the ballot showed supporters & opponents.
